WORK EXPERIENCE

Team Lead & IT Support Officer & Digital Rights Advocacy Officer | Encrypt Uganda Oct 2018 – Oct 2023

- Led a multidisciplinary team providing technical support, digital security assistance, and capacity-building programs for NGOs across multiple regions.
- Supported users through email, phone, remote access, and onsite visits, while encouraging safe and responsible use of digital technologies.
- Resolved technical, connectivity, and cybersecurity issues to help civil society organizations maintain secure and reliable digital operations.
- Created practical guides, training materials, and user documentation to improve digital literacy, cybersecurity awareness, and organizational resilience.
- Designed and delivered digital awareness campaigns, cybersecurity initiatives, and public education programs focused on online safety, privacy, and responsible technology use.
- Facilitated training on digital security, privacy, and online safety for NGOs, journalists, activists, and community groups.

- Supported digital rights, privacy, and data protection initiatives by helping organizations adopt safer communication and information management practices.
- Coordinated technology projects, advocacy campaigns, and stakeholder partnerships to promote digital inclusion, online safety, and secure access to information.

Innovation and Digital Advocacy Officer | Unwanted Witness, Kampala, Uganda Jan 2017- Sept 2018

- Designed and delivered digital literacy, online safety, and public awareness campaigns that promote digital rights and responsible technology use.
- Created educational content and digital engagement strategies for websites, social media platforms, and advocacy campaigns.
- Facilitated workshops and community training sessions on cybersecurity, privacy, and digital security practices.
- Monitored emerging technology trends and recommended practical approaches to improve digital engagement and outreach.
- Collaborated with local and international stakeholders to support digital rights, freedom of expression, and online privacy initiatives.

Field Support Technician | Fast Connections Ltd., Kampala, Uganda Jan 2010 – Dec 2017

- Installed, configured, and maintained network infrastructure, internet connectivity equipment, and end-user systems.
- Diagnosed and resolved hardware, software, and connectivity issues for residential and organizational clients.
- Provided onsite and remote technical support to ensure reliable system performance and positive user experience.
- Guided users through troubleshooting steps and supported the effective use of technology solutions.
- Maintained technical documentation and service records to support efficient problem-solving and knowledge sharing.
